Her spell takes me over  
Start to lose control  
I become defenseless every time that I'm with 'er  
The way she moves her body  
It just stops me cold  
So high but it feels like winter  
Her sexy makes me shiver, shiver

Oh no, makes me shiver  
Oh oh, oh woh uu

But when she talks my heart stops  
The way she feel, the way she walks gets me (gets me)  
She don't even tried  
Her fingertips touch her lips  
The curve that jump over hips kills me (kills me)  
Every time

What a beautiful sight (sight)  
I need to be with her tonight (tonight)  
Gotta have 'er, gotta make her mine (mine)  
Something 'bout her touch I can't get enough, oh no

Her spell takes me over  
Start to lose control  
I become defenseless every time that I'm with 'er  
The way she moves her body  
It just stops me cold  
So high but it feels like winter  
Your sexy makes me shiver, shiver  
Oh no, makes me,

Crazy  
She teasing me with all this waiting  
What she does to me's amazing  
Something 'bout her touch I can't get enough of

Her spell takes me over  
Start to lose control  
I become defenseless every time that I'm with 'er  
The way she moves her body

It just stops me cold  
So high but it feels like winter  
Her sexy makes me shiver

Her spell takes me over  
Start to lose control  
I become defenseless every time that I'm with 'er  
The way she moves her body  
It just stops me cold  
So high but it feels like winter  
Her sexy makes me shiver

Her spell takes me over  
Start to lose control  
I become defenseless every time that I'm with 'er  
The way she moves her body  
It just stops me cold  
So high but it feels like winter  
Her sexy makes me shiver, shiver
