Moscow, Moscow after dark
Nightmare, hell and thunderstorm
Moscow, Moscow after dark
Damnation, worship and frost

Moscow, Moscow after dark
Hammer, Sichel, Sovietstern
Perestroika ist so fern
Rise of the Eastern star

Moscow after dark
Metal ist f?r alle da
Moscow after dark
Breschnew und (kein?) Glasnost

Moscow after dark
Hart und eisig ist der Frost
Moscow after dark

Resist the sign of evil
Resist the underworld
Alive or dead we're leaving
Moscow, Moscow after dark

No hallelujah saves you
No cross can help you now
This is your nightmare calling
Moscow, Moscow after dark

Moscow, Moscow after dark
