Lightning strikes me down im on my knees
I can't write it out, but I'll show you what I mean
And the words, they will drip down the side of your
cheek
And I'm able to read them when they spell out
Let's just pretend four syllables that
We keep on ignoring again and again
As if we never even meant it

Baby let's leave them all for dead
All those thoughts inside your head
Can be reality
So let yourself believe

My life is a cross of a fire and a stampede
I burn inside you still run after me

Yeah, we'll find out
How it feels to burn alive
Oh, you and me girl
Let's set ourselves on fire

Baby let's leave them all for dead
All those thoughts inside your head
Can be reality
So let yourself believe
Oh yeah we don't care who finds out
Tonight is all that matters right now
Let's go once more down to the dance floor
Make me sell my soul for more

Baby let's leave them all for dead
All those thoughts inside your head
Can be reality
So let yourself believe
I feel your body radiate
In the lightning we create
So let yourself believe
Oh yeah we don't care who finds out
Tonight is all that matters right now
Let's go once more down to the dance floor

Make me sell my soul for more
