Lonely tonight, lonely tonight
Lonely tonight, honey, lonely tonight
Lonely tonight, lonely tonight
Lonely tonight, honey, lonely tonight, girl

We're enchanted, struck by lightning
What can we do when the feeling's so exciting?
We just ran into each other
And now we can't refuse 'cause the night is so inviting

You sure took me by surprise, I ain't fooling
Everything is synchronized in a movement
When I met you, I knew there was a reason
Every moment that we've shared guarantees it

We, we won't be lonely tonight
Must be miles ago since we first said hello
We won't let us out of our sights
Passion has to grow, darling, because we know

Riding our tide, luck is with us
We'll run the risk when we get so much to give us
A fate's on our side and it's our moment
We're getting warm 'cause we give each other shivers

Yeah, let's keep the fire alight
Nothing can go wrong, we're together from now on
Oh, all the love we excite
Loneliness has gone, did it take us so long?

Can't remember life without your music
Oh, there never was a doubt, don't we prove it?
You sure took me by surprise, I ain't fooling
Everything is synchronized in a movement, yeah

Now, we're enchanted, struck by lightning
What can we do when the feeling's so exciting?
We just ran into each other
And now we can't refuse 'cause the night is so inviting

We won't be lonely tonight
Must be miles ago since we first said hello

And we won't let us out of our sights
Passion has to grow, darling, because we know

Yeah, let's keep the fire alight
Nothing can go wrong, we're together from now on
Oh, all the love we excite
Loneliness has gone, did it take us so long?
