Little baby, baby me
little baby, baby me
in my heart you are the one
look around and have your fun
wo, you be my little baby
and baby me
Little baby can you see
what your love has done to me
can't you see love in my eyes
love that leaves me full of sighs
wo, you be my little baby
and baby me
Little baby, baby me
little baby, baby me
maybe I will baby you
with a bunch of love for you
wo, you be my little baby
and baby me
