i had a dream on a backlot
saw my life like a thumbshot
smiling faces in a picture frame
some other stils from the films that you made.
it would seem it was zolou
up there drinking coffee at the g o condo
elstree remember me i had a part in a b-movie
i played a man from history
elstree look at me
oh oha
now i work for the bbc
oh oha
life is not what it used to be
i took some dives in a fight scene
i had a stunt man keep my suit clean
theres new technology to make up this song
you stoped the orchastra and you get it wrong
elstree remember me i had a part in a b-movie
