Stuck in a hole, deep inside you,
Wanting to feel like I used to be,
No one can see the pain inside that carries me,
That drags me.
What the hell is goin on,
This anger trapped inside me,
All your lies, all your lies, all your lies
Youre killing me!
HAH!
Bringing out the demon inside
Takes away a part of me,
With all your lies, all your lies, all your lies,
Youre killing me!
HAH!
And I, I feel the same
And I, Im evil
Youll never understand me
Youll never know me, Im not afraid
Just do away with me, just do away with me
Youre killing me, me, ME!
Youre killing me, me, ME!
You make my life so dry
You, and I try, AND I TRY!
