(A.Chenneviere/B.Pierre/P.Periz/A.Mouici)

My love for you is something you can't destroy
You like to play you're always breaking hearts of boys
I wanna tell you that I'm not a fool
I wanna tell you that I don't want it I really mean it

My love for you is something I can't explain
My heart is a toy you're breaking in your hands
I went one day but I cried at nights
I wanna tell you although you may have some doubts

I come back, home to love you
I come back, home to be with you

Break my heart and hurt me cause I don't care
I'll hide my tears and then I'll never be blue
I really love you..

Tell me that someday you'll care for me
You keep on hurting me but listen to me, please
I'll marry you and have a child or two
I'll hide my tears and then I'll never be blue
I really love you....
Never be blue, never be blue..
Cause I love you... (bis)
