I forget time

So it's morning
We were drinking
feel runover
by a train

Started funny
People dancing
Turned into a
Crying game

Then I think of
When you told me
Only you
dream up the pain

So I don't worry
Bout tommorow
you'll be here my love

Everytime, I'm with you I
Forget time, Realize I
Broke on through to another space
Since I met you, I'm weightless now

when I wake up
In your heaven
Back into re-
ality

I don't worry
Bout tomorrow
It will never come

Everytime, I'm with you I
Forget time, Realize I
Broke on through time and space
Cause I met you, I'm weightless now
