There's only one you
Why try so hard not to be yourself
There's only one like you
Who do you think you are if you don't believe

Who do you wanna be
When you try so hard to convince everyone
That you're not like you
Why do you want yourself to believe

All the fakes with their masks are the sad ones
All the fakes with their masks are the sad ones

There cannot be two
There can't be two of you
Everyone knows the truth
Except for you

All the fakes with their masks are the sad ones
All the fakes with their masks are the sad ones

All the fakes with their masks are the sad ones
All the fakes with their masks be yourself

You don't believe in you...
