I've been hangin' round  
Everywhere you go in town  
Watching you forget me  
I wanna see you cry  
I'm gonna get you back  
Put your hands up, baby

You're talkin' to me like I'm in your debt  
You don't remember things I can't forget  
Now you don't look so well  
Turn that gun back on yourself  
And take a load off, baby  
I've had enough this time  
Give me back my boots, you swine  
It's your fault you hate me

I only hate you 'cause I hate myself  
It breaks my heart that I can't wish you well  
Now I could end this here  
Dying to take you with me, dear  
It could be so easy

I don't care what you do  
I'll still be rid of you  
Just make your mind up, baby

I'll turn around and walk away from you  
If I turn back I'll be the death of you
