love me like a baby  
hold me like a child  
tell me you love me  
and make me smile

it's been such a hard day  
i played all the games  
no need to pretend now  
i'm here with my friend now

out there, it's a crazy world  
i get so tired of being strong  
baby, baby me  
safe in your arms, i'm free  
where i can hide and  
leave the world outside

love me like a baby  
hold me like a child  
this day is behind us  
let love come and find us

hold me tight  
all through the night  
hold me tight  
mm-mm-mm-mm-mm
