

Prayer For Cleansing "Chalice Of Repentance"

springtime is sorrow, make love
last until the heart is dead
frost on the cracked glass, bleaching purity
ride angel's wings into heaven,
naked flesh a sick sight
vomit into hair of sweat, feed
myself on the lust of humanity
devour orgasms of blood
singing an ode of selfishness
into a sea, putrid recognizance
a stench of sex so strong, taste
it on my tongue
sweet poison caressing taste
buds until death

decay - corrode from the inside out
rot, melt away - the coating of security

now and forever, burns numbers in my head
cum to my senses, turn back the clock thrice

realization of desperation
suffer virgin flesh - suffer loneliness
together rode the wings of
demons right into hell
