Don't know yet if I'll find back my friend  
Gone three years ago  
To her castle in a far-away land  
Today I'll know...  
When the feeling's still so strong I bet  
That our tale has no end  
I'm your little sister  
When year after year our friendship says  
That our tale has no end  
I'm your little sister  
Seven days of peace in five people's hearts  
The most precious gift

A little nostalgic on the side  
But what a great relief...  
When the feeling's still so strong I bet  
That our tale has no end  
I'm your little sister  
When year after year our friendship says  
That our tale has no end  
I'm your little sister

Seven days of peace in five people's hearts...  
A little nostalgic on the side...
