Cry your eyes  
Seen this face a thousand times  
Falling from my fantasy

Slip inside  
The world to be  
A victim of your sympathy

Seem to know  
How to kiss the fire  
That burns the box we live in

Is it a shame  
The game consists of this (?)  
The game consists of this (?)

Cry your eyes  
Seen this face a million times  
Falling from my fantasy

Oh, Slipped inside  
Your world to be  
A victim of your sympathy

Mmm, you seem to know  
How to push the fire  
Oh, that burns the box we live in

Circle me with indecision  
Cover with pristine precision  
Add to, add to your shame

Falling  
Falling out  
Of love...with you babe

Falling  
Falling out

Of love...with you!

Oh, come inside

Oh, open up your eyes  
Baby I know the deal  
Oh, are you for real

Mmm, Cry your eyes  
I've seen this face a million times, a million times  
Falling from my fantasy

Slip outside  
Your world with me  
A victim of your sympathy

Oh, you seem to know  
How to push...you push

Oh, oh, yea  
This has been a shame (?)  
The game exists like this (?)  
The game exists like this (?)

Falling  
Falling out  
Of love...with you babe

Falling  
Falling out  
Of love...with you babe

Falling  
Falling out  
Of love...with you!

Falling out  
Falling out of love with you  
Falling out of love
