You've got me spinning around your tornado
Then keep on making me pay
You've got me comming as soon as a ?
But you got nothing to say

It's the same old story
The same as the last time
How much more you think i can take
Play me like a fool and i'm down on to you
Somehow i just can't get away

When i think of all your lies
Wonder what i ever did, to suffer you
We always make the same mistakes
This time i lay the burden down on you

I'll tell ya something i just don't understand
It's kind of tough to get a lesser man
Your so vain
i cant understand
I'm trying baby but i'm going insane
Out of my mind
Yeah

When i think of all your lies
Wonder what i ever did, to suffer you
We always make the same mistakes
This time i lay the burden down on you.
insturnment break

When i think of all your lies
Wonder what i ever did, to suffer you
We always make the same mistakes
This time i lay the burden down
This time i lay the burden down
This time i lay the burden down
This time i lay the burden down
down down down down
