With you I am stronger  
I'm more than what's to come  
So please stay real close to me  
Sometimes I'll be tender  
But that's when you're around  
You are everything to me

You know all I want  
You know all I need  
You know all I want  
Is one, one kiss from you

With you time is shorter  
I want to stop the time  
All this and so much more  
Sometimes I can see you  
Everywhere I go around  
You are so special to me

You know all I want  
You know all I need  
You know all I want  
Is one, one kiss from...  
I want, one kiss from... you
