Well if you're feelin' low, take it slow Baby get your
head screwed on I know he's left, but don't be
depressed Baby let your {favorite?} daddy see you
through Oh baby you'll be out of your mind, Baby you'll
be out of your mind, Baby you'll be out of your mind.
You know you're nice, you're sugar and spice And I
know what you're going through And if you're hot HOT,
and even if you're not Baby let your {favorite?} daddy
see you through Oh baby you'll be out of your mind,
Baby you'll be out of your mind, Baby you'll be out of
your mind. You were so neat, ever so sweet, And
overnight you've seemed to change Since you kissed
your psychiatrist Baby, you've never been the same.
Well if you're feelin' low, take it slow Baby get your
head screwed on I know he's left, but don't be
depressed Baby let your {favorite?} daddy see you
through Oh baby you'll be out of your mind, Baby you'll
be out of your mind, Baby you'll be out of your mind.
