You and me going down the tracks  
Picking up speed now I can't relax  
Whistle going off in the back of my brain

(Love train, here we go)

You and me going down the tracks  
Picking up speed now I can't relax  
Whistle going off in the back of my brain

Here we go

Why do I feel like I'm lost in Emotion  
How did you know how to touch me like this  
Save me I'm over my head in an ocean  
Reaching for life, in the taste of your kiss  
Feeling the flow in the glow of the madness  
Tangled in you, how I just come undone  
Take me I'm yours if I fall into pieces  
Promise to put me together again

Here we go  
We're riding on a love train  
And it feels so good  
So let's go  
We're riding on a love train  
And it feels so good

Here we go  
You and me going down the tracks  
Picking up speed now I can't relax  
Whistle going off in the back of my brain

Why do I tremble inside when you whisper  
Your lips are so warm just like fire on my skin  
Why is this room spinning faster and faster  
As I fall in your arms, I'm crazy again  
Your fingers all over, you got me feeling  
Weightless inside like I'm falling through space  
I'm so into you that my senses are reeling  
With you I could be anywhere, anyplace

Here we go  
We're riding on a love train  
And it feels so good  
So let's go  
We're riding on a love train  
And it feels so good  
Here we go  
You and me going down the tracks  
Picking up speed now I can't relax  
Whistle going off in the back of my brain  
Here we go  
You and me going down the tracks  
Picking up speed now I can't relax  
Whistle going off in the back of my brain

Here we go  
We're riding on a love train  
And it feels so good  
So let's go  
We're riding on a love train  
And it feels so good

Here we go  
We're riding on a love train  
And it feels so good  
So let's go  
We're riding on a love train  
And it feels so good  
Here we go  
You and me going down the tracks  
Picking up speed now I can't relax  
Whistle going off in the back of my brain  
Here we go  
You and me going down the tracks  
Picking up speed now I can't relax  
Whistle going off in the back of my brain

You and me going down the tracks  
Picking up speed now I can't relax  
Whistle going off in the back of my brain

You and me going down the tracks  
Picking up speed now I can't relax  
Whistle going off in the back of my brain

You and me going down the tracks  
Picking up speed now I can't relax  
Whistle going off in the back of my brain
