They give you the answer
The answer is wrong
But this is the answer
That you want to hear
So all you know
All you know is wrong
But who gives a shit
This is how it's done
What is next
A price to breathe air?
They fuck the people
Fuck the care
There's no light
But emergency flares
I bought her a star
But she wants the sun

This is the system
This is the cage
Should we handle
All this with rage?
Will they wake
If they go to sleep?
Well, who knows?
This is too deep
Break the chains
Go for their heads
Let no one hold you down

How can these vultures
Sleep at night?
They can't see
With their empty eyes
If I cut my strings
Will I fall or dance?
I don't know
I'll take my chance
Refuse to be a puppet
Refuse to be a brick
Now why is this legitimate?
Twist the tongue

In the mouth that spits blood
How does this help the people?
