We're holding on to what we love, we'll never let it go.  
I've got all my brothers and my sisters around me.  
We're here to live the fast life, no one can tell us to  
slow. Now we're turning nothing in to something  
someday.

We will, we will ride forever.  
Time is all we have, now or never.  
Trade our lives to come together.  
We will, we will ride forever.

We're taking all our chances, this all we know. I've got  
all the strength I need with my people behind me. We'll  
stay as long as we can, no one can tell us to go. Now  
we're turning nothing into something someday.

We will, we will ride forever.  
Time is all we have, now or never.  
Trade our lives to come together.  
We will, we will ride forever.  
I can promise you one thing, we won't play by your  
rules anymore...anymore.  
For love this is mine!  
It's all mine!  
Everything is mine!  
It's all mine!

We will, we will ride forever.  
Time is all we have, now or never.  
Trade our lives to come together.  
We will, we will ride forever now, starting now...starting  
now...starting now.
