"Believe"

oh
I needed to believe in something
I need you to believe in something
I needed to believe something
I need you to believe in something
I needed to believe
I needed to believe
oh
oh
I needed to believe in something
I need you to believe in something
I needed to believe something
I need you to believe in something
I needed to believe

I needed to believe
I needed to believe
I needed to believe
oh
I'm moving in between
can you feel me in between
I'm moving in between
can you feel me in between
oh
oh
oh
oh
I needed to believe
I needed to believe
