2GE+HER - Visulize
=====

Sometimes you must live though darkness
To see the light you must visulize
close your eyes, visulize
the most beautiful girl there could be
just one side, mezmorize its like gazing
right in a sea floating down the street,
she stands out like a candle light
when i look in her eyes im not having side
couldnt change this feeling
so walked to her with a vision in my mind
with a head on my face and a smile on hers
i softly say goodnight close your eyes, visulize
the most beautiful girl there could be
just one side, mezmorize
its like gazing right in a sea

never dreampt of one that could posses
a skeeth of gold (skeeth of gold)
she sees beyond though the darkest paths
she knows her soul will she be my girl
if she loves this world will i ever know
when the time is right,she will be my light
she is my angel close your eyes, visulize
the most beautiful girl there could be
just one side, mezmorize
its like gazing right in a sea

a touch of the hand, from a far away land
gazing at affection in the palm of my hand
a touch from her face, the far away place
theres no one above her but spirit and grace

(3 times)close your eyes, visulize
the most beautiful girl there could be
just one side, mezmorize its like gazing right in a sea
