Confusion, I trashed me life  
Confusion, get me out of my site  
Confusion, she just annoys ya  
Confusion, do I love her or do I just destroy her, yeah?

No matter what I do  
I can't seem to kick it and bustin' through  
My confusion, that's what I've got

I want you out, out, out, out, out of my head  
I want you out, out, out, out, out of my head  
I want you out, out, out, out, out of my head  
I want you out, out, out, out, out of my head  
Right now

Confusion, rotting from the inside out  
Confusion, shocked from the brain drain out  
Confusion, how do I feel  
Confusion, you don't seem real to me at all

No matter what I do  
I can't seem to kick it and bustin' through  
Confusion, that's what I've got

Confusion  
Confusion  
Confusion

Confusion  
(That's what I've got)  
Confusion  
(That's what I've got)

Confusion  
(That's what I've got)  
Confusion  
(That's what I've got)  
Confusion  
(That's what I've got)

Confusion  
(That's what I've got)

Confusion  
(That's what I've got now)

Confusion  
(That's what I've got)  
Confusion  
(That's what I've got now)

Confusion  
(That's what I've got)  
Confusion  
(That's what I've got now)

Confusion  
(That's what I've got)  
Confusion  
(That's what I've got now)  
Confusion

I want you out, out, out, out, out of my head  
I want you out, out, out, out, out of my head  
I want you out, out, out, out, out of my head  
I want you out, out, out, out, out of my head
