Send a probe through a massive storm
A million molecules make it warm
And a star is born, hmm mmm

And the star had some sons and daughters
Some with, some without water
Some cool and some run hotter

We blast an astronaut through the gases
And do our best to save their little asses
Come home don't rocket past us, no

Hello from inside a cloud
The particle smasher is maxing out
And it's smelly and loud

Jupiter, Jupiter, massive passive ball
Jupiter, Jupiter, or-or-orbital
Jupiter, Jupiter, mass of gas and damnit!
Jupiter, Jupiter is pure pure pure pure planet
Pure planet
It's pure planet
It's pure planet

Flying by in a perfect location
Billions of Earth's worth of exploration
Or just a space gas station, I don't know

From deep below the surface
The tiny life forms are getting nervous
Hope it doesn't hurt us walkin' on the slimy surface

We lost contact with home base
On the dark side of this place
Please send more human race
To fill the empty space

Jupiter, Jupiter, massive passive ball
Jupiter, Jupiter, or-or-orbital
Jupiter, Jupiter, mass of gas and damnit!
Jupiter, Jupiter is pure pure pure pure planet
It's pure planet

It's pure planet
It's pure planet, yea

Oh yea
Hold on
Oh yea
