In the hazy light I see  
Lonely croak, dark green dreams  
I got no paddle and I got no shoes  
I'm solo in a raw hide canoe  
Hundreds of thoes little bug eyes  
Them drooly running glassy eyes  
Smiling through the foggy soup  
I crack a grin and laugh in tune

I would love to float on  
Monkey River

Sad life hangin' out on a limb  
Purple Paul pluckn a guitar  
All string broke except for one  
Careful chimp  
Rest the bass  
Water's only shodow deep

Monkey's dip into the river  
Black and blue moon light up the leaves  
Cypress branches chuckle and shiver

I would love to float on  
Monkey River

Tiny fingers hold my hope  
Felling full of water and holes  
Look like killers but they mean no harm  
I know them all my brothers.....

An on the last on duck's boat  
Monkey's wave goodbye  
Patch my boat with chewing gum  
This purple haze is easy on my

I'd love to float on Monkey River
