He's the boy
With the messy mind
It's hard to find
The time to clear it
He's the boy
With the broken brain
Not insane
But never happy
Sharpen up those fangs
Not insane
But never happy
Shes' got
Those rock star
Girlfriend eyes
The kind that fry
The back of your skull
Shes' the one
With the skinny face
Shes' got an ace
With sleeves
Stuffed up it
Sharpen up
Those fangs
Got an ace
With sleeves
Stuffed up it

And it's no surprise
No surprise
The fangs
Aren't sterilized
I'm too weak
For curled fingers
Too tempting to pass by

No surprise
No surprise
The fangs
Aren't sterilized
I'm too weak
For curled fingers
Too tempting to pass by

She's the girl
With the chocolate heart
She turns up the heat
And melts her target
Stumbles
Into a poisonous thing
She feels the sting
But it doesn't matter
Sharpen up those fangs
She feels the sting
But it doesn't matter

Pull the spider out
From under your boot
The venomous tooth
Will make you smile
Let it bite
Cause it's so damn cute
Let it bite
And drain you empty
Sharpen up those fangs
Let it bite
And drain you empty

And it's
No surprise
No surprise
The fangs
Aren't sterilized
I'm too weak
For curled fingers
Too tempting to pass by

No surprise
No surprise
The fangs
Aren't sterilized
I'm too weak
For curled fingers
Too tempting to pass by

Sharpen up those fangs (7x)
