

Presidents Of The United States Of America "Sunshine"

Visit "[Sunshine](#)" on MotoLyrics.com

You're the one, you're the sunshine
You're the one, you're the sunshine
Every time I see you, every time I see you, every time
You're the one, you're the sunshine
You're the one, you're the sunshine

Ooh, and I want to be near you
And I want to be where you are
You're a steak and I spear you
You sell beers and a sparkle star
Nestled between a worm and rock
Snuggle it down for sleep time
Long lazy afternoon spent shearing poodles in the park

You're the one, you're the sunshine
You're the one, you're the sunshine
Every time I see you, every time I see you, every time
You're the one, you're the sunshine
You're the one, you're the sunshine

Ooh, and I want to be near you
And I let you to dance on my feet
If I squint I can hear you
Playing all day long in the street
I look for your race car out on the highway
Then you go zooming by me
In your special zooming lane

You're the one, you're the sunshine
You're the one, you're the sunshine
Every time I see you, every time I see you, every time
You're the one, you're the sunshine
You're the one, you're the sunshine
Ooh, you're the one
