Love child to Genghis Kahn
And a beautiful busty Amazon
On the Death Star with her godfather
Darth Vader... and nine months later

But that's impossible
Yeah, she's super-collosul
She'll make a fascinating fossil

Supermodel... oh yea...
Supermodel... not just a regular girl

She made of metal and a million miles high
Hair-do scrapin' the sky
Made it with the terminator
Schwarzenegger... 9 months later
But that's impossible
Yea, she's supercollosul
She'll make a fascinating fossil

Supermodel... oh yea...
Supermodel... not just a regular girl

Supermodel... oh yea...
Supermodel... oh yea...
Supermodel... oh yea...
Supermodel... oh yea...

Supermodel... oh yea...
Supermodel... oh yea...
Supermodel... oh yea...
Supermodel... oh yea...
Supermodel...
