Hey, my superstar  
My flying, a shooting star  
Ah somewhere, in the night  
My crashing, a meteorite

Oh I got a rear view mirror  
That I use to check my makeup  
Drivin' down the super highway  
Ah hopin' I don't wake up  
She had that look like  
All those girls on my TV  
I changed lanes in hope she would  
In hope she would see me

Hey, my superstar  
My flying, a shooting star  
Ah somewhere, in the night  
My crashing, a meteorite

I'm jet powered in the fast lane  
I choose words I use to woo her  
I shout them out, my open window  
She doesn't care, she doesn't seem to  
She had that look that  
Said she could be the one to, save, save me  
And then she swerved, she lost control  
She flew her car into the sea

Hey, a superstar  
My flying, a shooting star  
Ah somewhere, in the night  
My crashing, a meteorite

Hey, a superstar  
Ah hey, my superstar  
Ah hey, my superstar  
Ah hey, my superstar  
Ah hey
