

All Star United "Like Hallelujah"

Visit "[Like Hallelujah](#)" on MotoLyrics.com

It's cold in here
So draw me near
And whisper words
As warm as tears

I wanna swim down deeper in your angel eyes
Chase your soul like a new sunrise

Saying your name feels the same as "Hallelujah"
Every kiss meets my lips as "Hallelujah"

I breathe you in
And planets spin
Around the world
Beneath my skin

I wanna find forever in the way you move
Taste some glory that we never lose

Maybe like the sea
Washing over me
Maybe like the rain
Washing over me
Falling over me
That's the sound of your name
