"Made In Heaven"

Into the sky and through the moonlight
Above the clouds we'll float away
Our love was made to last throughout the centuries

Yeah it's you
and it's me
I believe that honestly

Chorus:
We were made in heaven
And we could spend the rest of our lives
In heaven
'Cause everytime I look in your eyes
I'm in heaven

Into your eyes that burn like starlight
Enough to melt the milky way
Our love was made to last throughout the centuries

Yeah it's you
and it's me
I believe that honestly

Repeat Chorus

In heaven where our love was born
Never to be taken away
It's forever was the love we swore
Together for the rest of our days

Repeat Chorus
