She's like a star light
It kills her as she glows
She has about a billion friends
But no one knows

Yeah so far it's been hard
She falls to make her way
She's a girls who needs
To hear somebody say

Chorus:
It's alright
It's alright
It's alright
I will be your satellite

Like a candle to the darkness
You will be my sun tonight
And me the earth that turns
To feel you shine

Repeat Chorus

It's alright
I'll revolve around you
Day and night
Together we might make it

Yeah together we might make it
Through the night

Repeat Chorus

Be your satellite..
