A song for the broken hearted
Don't let them get you down
Yesterday has departed

Whatever the world has failed you
It won't make a difference now
Today is the day we started

It takes a brave soul stay
Waving goodbye
As they turn and walk away

A song for the broken hearted
Whatever is on your mind
Eventually will have faded

If everything came so easy
We never put up a fight
Then love would be overrated

It's hard to know just what to say
To keep it inside
As they turn and walk away

A song for the broken hearted
Don't let them get you down
Yesterday has departed

Whatever the world has failed you
It won't make a difference now
Today is the day we started

It takes a brave soul to stay
Waving goodbye
As the turn and walk away

A song for the broken hearted
Don't let them ever get you down...
