But that's totally
But that's totally
Billions of birdies squawkin' outloud
Talkin' in code to clams in the clouds
They send a secret message and send it by worm
So vibratin' spiders will receive the word

But that's totally feather pluckn insane
Ten million monkeys all pick up guitars
But nobody taught them how
Five thousand fishies rockin' really really really hard
Nobody taught them how
Check out chickey drivin' piggy's little blue car
Nobody taught him how

Well flies like to fly 'cause they don't like to stay
Buzzin' in the ears of the chicken all day
Chicken understand and he peck out the code
Send a subsonic signal through the snot in
The middle of an elephant's long wet cold grey nose
But that's totally feather pluckn insane
Ten million monkeys all pick up guitars
Nobody taught them how
Five thousand froggies rockin' really really really hard
Nobody taught them how
Check out chickey drivin' piggy's little blue car
Nobody taught him how

Oh yeah oh yeah oh yeah
Oh yeah oh yeah oh yeah
Oh yeah oh yeah oh yeah

Everybody supernova
Everybody supernova
Everybody supernova
Everybody supernova
