Shaftesbury Avenue
Cold coffee, burning news
Everytime I look at you
Growing scars, my heart is blue

One step forward and two steps back
Keep walkin through the night
This is not easy to fake
Hide myself behind a cigarette
Behind a cigarette

Accross the nighttime scene
Between Dean and your street
Another fading memory
Heavenly blue morning glory
Morning glory

I know it's time, oh yes I do
Leave my broke here with no clue
This road leads to nowhere
I'll pretend to start again

Wine is good - bruises fade
What's your name? I just forget
Bitter and spineless
The town lights up our last embrace
Our last embrace

Accross the nighttime scene
Between Dean and your street
Another faded Memory
Heavenly blue morning glory
Morning glory

Would you follow me?
I'm still looking outside, sitting in this burning room
Ten number, NDE
I'm here forever standing above the crowd

Standing above the crowd
Standing above the crowd

Standing above the crowd
Hanging above the crowd

Shaftesbury Avenue
Cold coffee, burning news
Everytime I look at you
Growing scars, my heart is blue
