

Pressure 4-5 "Into Yesterday"

Visit "[Into Yesterday](#)" on MotoLyrics.com

Step into the light
Because your face is darkened from the night
Will I focus my attention
On things more important than me and my life?

These days will change
Like memories fade into yesterday

In the heart of every moment
Lies a truth and a message I might not know
Can't forget the time we shared
The lessons learned in the past, I'll forever hold

These days will change
Like memories fade into yesterday
And when I go
What will I know and what will they say?

I fade to sleep and I dream
Secrets, I keep with everything
It seems if I believe it
I might see you

These days will change
Like memories fade into yesterday
And when I go
What will I know and what will they say?

We fade to sleep and in our dreams
(My dream is gone)
Answers we seek to anything
(My dream is gone)
Awaken only to see that
(My dream is gone)
My dream is gone
