Life is hard
So am I
You better give me something
So I don't die

Novican
for the soul
Before I sputter out
Before I sputter out

Life is white
and I am black
Jeasus and his lawer
are commin' back

Oh my darlin'
will you be here?
before I sputter out
Before I sputter out
Before I sputter out

Guess who's livin' here
with the great undead
This big odd numbers life
Is fucking with my head
once again

Life is good
and I feel great
cause mother said
I was a great mistake

Novicean for the soul
You better give me something
to fill the hole.
Before I sputter out
Before I sputter out
Before I sputter out
Before I sputter out
