Had the walk of a girl
For a man he was sure handsome
He had the talk, he had the twirl
Man, boy he was sure handsome

Red and blue feeling cool believe it
Come on down, sort it out, believe in it
Towers are raised to the sky
Hopefully I'll believe in it one day

Well, he didn't know he had the rights here
He didn't know he had the rights
All I know is the time is right here
That's right here, that's right

Had the walk of a girl
Sunshine comes your answer
Had the top spark and the curl
Well, boy you saw him, he was sure handsome

Red the blue creed kind believed it
Coming down time was done believing it
One day he said he didn't know he had the rights here
Didn't know he had the rights

I didn't know the time was right here
Blue lights are here
Blue lights are here
Well, get down tonight

He didn't know he had the rights here
I didn't know he had the rights
Knowing so much better than needing
Blue lights are here, blue lights are here

Didn't know he had the rights here
Didn't know he had the rights here
