Lately, I've been looking for you  
Cross my fingers that you  
Stay awake for me  
Oh Oh, oh oh oh oh

Hold my breath, I'm falling  
Underneath, I'm dying  
And you're closing in on me  
Oh Oh, oh oh oh oh oh

I wanna take you  
I wanna break you

Falling down this black-hole road again  
There's no way out  
I'm naked, shaking, blood is pounding  
You tear me down  
You're all I wanted  
All I wanted  
All I wanted  
All I wanted

Lately, I've been running circles  
Hoping that you'll see me  
Crying out for you  
Oh Oh, oh oh oh oh

Wait for me, I'm calling  
On my knees, I'm begging  
That you'll stay awake for me  
Oh Oh, oh oh oh oh oh

You're gonna take me  
You're gonna break me

Falling down this black-hole road again  
There's no way out  
I'm naked, shaking, blood is pounding  
You tear me down  
You're all I wanted  
All I wanted

All I wanted  
All I wanted

I'll close my eyes  
I'll wait for you  
I know you hear me crying now  
I'll close my eyes  
I'll wait for you  
I know you hear me crying now

Falling down this black-hole road again  
There's no way out  
I'm naked, shaking, blood is pounding  
You tear me down  
You're all I wanted  
All I wanted  
All I wanted  
All I wanted
