

## The Church

### "Everybody Gets What They Deserve"

Visit "[Everybody Gets What They Deserve](#)" on MotoLyrics.com

Please don't tell  
I never meant to hurt you though I didn't wish you well  
(and)

Please don't you tell  
I don't know what I was thinking

This disease brings me to my knees  
This disease kills me by degrees  
Everybody gets what they deserve

But I could be wrong  
Cause I could never live with me before you came  
along (and)

You made me whole  
You crept in through the window of my soul

This disease brings me to my knees  
This disease kills me by degrees  
Everybody gets what they deserve

Maybe you've out grown  
Silence on the phone  
I can't keep this thing inside of me

This disease brings me to my knees  
This disease kills me by degrees  
Everybody gets what they deserve  
Everybody gets what they deserve  
Ever body gets what they deserve  
Everybody gets what they deserve
