You're so easy to love  
You're so easy to adore  
You're easy to want  
I always want more.....  
The way you talk  
It puts me in a dream  
Makes me feel like the cat who had the cream

You're so easy to love  
You're easy to be with  
I'm telling everybody that you must be a gift from  
higher planes  
As a broken soul below I always wanna be living in your  
glow

You're so easy to love  
You're so easy just to like  
Don't change a thing  
Cos everything's just right....  
You fly like a swan  
You sing like a bird  
I wanna tell you everything  
But I can't find the words

You're so easy to love  
You're so lovely just to touch  
So beautiful to see  
I wanna see so much....  
Alone in your head  
I wonder where you roam  
It doesn't really matter if you always come home

You're so easy to love  
So nice just to kiss  
You're standing in the light  
I'm bathing in the bliss  
Beautiful as hell  
Wonderful as well  
Don't you know I'm buying whatever you can sell

You're so easy to love

So easy to be round  
Asleep so sweet but with your tiny sleeping sound/hand  
I hold you in my arms  
I see you in my mind  
I need you every day  
I need you every night

You're so easy to love  
You're so easy to admire  
You've got me by the heart  
If anyone inquires  
You're soft and you're strong  
You're cool and your warm  
Delicate, intricate, triumph over form

You're so easy to love  
You're so crucial to my life  
I want you to know  
That everything's alright....  
The way that you love  
It's pure and it's strong  
If you stay around  
Nothing can go wrong

(These next two songs are on the Louisiana single)
