I wanna consume, I wanna eat up a mountain  
Drink up an ocean, dream up a world  
I wanna consume, I wanna smoke up a forest  
Shoot up a river, run up the bill  
I want women and men  
And when the whole damn thing is over  
I want it all back again  
Yeah maybe I'll be happy then

We'll ride the nightmare every night  
Riskin' our dreams  
And then we'll fall from such a height  
We'll split our seams

I wanna devour  
I wanna suck up your power  
I wanna smell all the flowers  
I wanna use up my useless hours

I wanna absorb, I wanna absorb your spirit  
Feed off your soul, drain out your youth  
I wanna absorb, I wanna become your lover  
Erase your master, live out your life  
I want your time, and your thoughts  
I want the things your sugar daddy bought you  
What the alchemists and magicians sought  
I want starboard, I want port
