Combustion, suggestions, roaring engines
Jewels and lathes that build a world
Titanic, Howard Hughes, an aimless king
Always spoiling the best things you done

So red squares and wavy leaves
Delicate glass kisses, delicate lips

Russian autumn heart
Russian autumn heart

Testing, digressing, falling to the earth
Red hot spaceships with soil so rich
A trillion pennies for a handful of dust
A sight only witnessed by a mountain of ice

So red squares and wavy leaves
Sibling link meets Manchurian mink

Russian autumn heart
Russian autumn heart

Combustion, suggestions, roaring engines
Jewels and lathes that rule the world
Titanic, Howard Hughes, an aimless king
Always spoiling the best things you done

So red squares and wavy leaves
Delicate glass kisses, delicate lips

Russian autumn heart
Russian autumn heart

Russian autumn heart
Russian autumn heart
Russian autumn heart
