Baby I know there's people out there starving  
Baby don't go, you got the wrong idea  
Baby don't say there's people out there laughing  
Baby that way it's gonna take me years

You're blowing hot and cold  
I want you heart and soul  
A pretty pal curiously [1:30] won't give me what you  
sow

Some day I think that nothing outside matters  
Some day you blink, you miss a thousand years  
Some day I pray, falling dumbly to my bed  
Some day you stay till the audience appears

You're blowing hot and cold  
I want you heart and soul  
A pretty pal curiously [2:54] won't give me what you  
sow
