Here for now, here for now

An island coincidence away
Boarding a train always leaving today
Approaching a station, starts to slow
Ushered out, no will against the flow

Dark as the night comes to share
With stars in her hair and grand majestic flair
Framed, a world passes by
With the sound of a young girl's sigh
Man carrying a brow, smoke rises from the crowd

Here for now, here for now

Tug in the sound as if to say
There's left a part of now in yesterday
The hurry for fear to miss the show
Not as strong as the wind's eternal blow

Dark as the night comes to share
With stars in her hair and grand majestic flair
Framed, a world passes by
With the sound of a young girl's sigh
Man carrying a brow, smoke rises from the crowd

Here for now, here for now, here for now

Wondering if the leaves will fall in May
Only know, if I decide to stay

Dark as the night comes to share
With stars in her hair and grand majestic flair
Framed, a world passes by
With the sound of a young girl's sigh
Man carrying a brow, smoke rises from the crowd

Here for now, here for now, here for now
Here for now, here for now, here for now
Here for now, here for now, here for now
