Anyway fell in love with her today
I can say, I won't let her slip away
She walks like waterfalls and her smile won't take a
while
Anyway, fell in love with her today

You know this is unlike me to open up and say..
You are all i need my love hey
Oh, you got the ways so you get to move me
I like your whisperin my name
Oh, you got the ways so you get to soothe me
I like your everything hey...

Anyway, opened up my eyes today
Now I must say, all that gray has gone away
She smiles like sunlight shining and
Her face like sad today
Anyway opened up my eyes today

I can not believe myself no...I
I can't think of no one else my love hey no no
Oh, you got the ways so you get to move me
I like your whisperin my name
Oh you got the ways so you get to soothe me
I like your everything hey..

You know this unlike me to
Open up and say...
You are all i need my love hey
Oh you got the ways so you get to move me
I like your whisperin my name
Oh you got the ways so you get to soothe me
I like your everything

Oh you got the ways so you get to move me
I like your whisperin my name
Oh you got the ways so you get to soothe me
I like your everything
