"Moment Of Love"

To the man I truly love,
Allow me to express what I'm feeling inside.
You bring me joy and embellished my heart,
That keeps me feel treasured even we're apart.

Everytime we talked I pause for a while,
With my heart filled with a smile.
Thinking of you about a million times,
Capture me along a thousand miles.

You've shown me the ways of reality,
The romantic view of life now I see.
Our future has been planned to come true faithfully,
As we go along together to our journey.
