

## Elixir

### "Light In Your Heart"

Visit "[Light In Your Heart](#)" on MotoLyrics.com

When you're all alone  
And needing some protection  
Seek the ways of thrith  
And follow their direction

Look around  
It can be found

You need a light in your heart  
A light in your heart  
You need a light in your heart

So never fear the dark  
There is nothing there can harm you  
Go the way of your heart  
Feel the inner light shine through you

Look around  
It can be found

You need a light in your heart  
A light in your heart  
You need a light in your heart

Look around  
It can be found

You need a light in your heart  
A light in your heart  
You need a light in your heart
