"thank you very much

This song is a song we put all our money into making
when we were living in rhyll, north wales & we didn't
have anything much going for us, so we made a single
& this is it. this is calle
Lare yourself unsafe"

Declare yourself an unsafe building
Suffer the indignation of your world
To climb the ladders you've gotta suss out the snakes
Remember your height remember to never look down.
'cause now you've made your choice
You've gotta take your chance
Find a way out now

Now that i
I have declared myself unsafe
I have declared myself unsafe
Unsound, unknown, unwanted, unnecessary
I've been condemned

I'm unsafe
Unsafe

Come out of the cupboard and into the real world
Open the window and let some light into your life
Because the bed you've made no
You need not sleep in it
Throw back the covers and make
All of your dreams come true

Because it's dark in the tunnel
But keep on coming through
Straight down the line and sure enough
You'll see the lights that shine

'cause now you're young
You've got to run
You've got to take your chance
Of a way out now

I
I have declared myself unsafe
I have declared myself unsafe
Unsound, unknown, unwanted, unnecessary
I've been condemned
I'm unsafe

And leave behind your bridges burning
Take to hills
For your time will soon come
Because you're here for a purpose
But you'll have to search for it
Whatever it is
You have got to decide
Decide now, now that

I
I have declared myself unsafe
I have declared myself unsafe
Unsound, unknown, unwanted, unnecessary
I've been condemned Declare yourself an unsafe
building
